Percentage : 78.8%

Experience

Ampius Technologies-Backend Developer

02/23- 06/23

Continuously improve your programming skills in languages com- monly used for backend development such as Python Django. Un- derstand the importance of testing and quality assurance in soft- ware development.

Oasis Infobyte-Frontend Developer

01/23 - 02/23

Frontend developers often work with a range of technologies

suchas HTML CSS and JavaScript. Achieving a deep understandin-

-g and mastery of these technologies as well as frameworks and

libraries like React Angular or Vue.js can be considered a

significant achievement.

Project

Hospital Management System

Implemented a robust patient management module that facilitated easy access to patient information medical history and treat- ment plans for healthcare professionals built in react .

Crypto

This is a cryptoverse app that is built in React . In this we can see here Global Crypto Stats using java script . The data of this app is being fetched through API and Styling done by html & css.

worker-safety

In this project i have use Django and HtmlCSS to built it. We want to

make sure that both the client and our staff are as safe as possible

.

Achievements

I got many prizes for my web projects from my collage and also 3 times winner of coding challenges organized in our university.
